OUR MARBLE STORY

We have traveled the world to source the best marble available and we believe we have discovered the best supply. A tumbling process gives each of our stones a rustic edge and adds to the unique personality that can be seen on every surface, edge and corner of our tiles. Differences in coloration and shading add to the beauty of our natural stone.

Carved from large blocks, no two stones will ever be alike!

OUR STORY

ScreenCraft Gifts is a third-generation Rhode Island-based family business. Since 1952, we have been dedicated to creating the highest quality gifts and memorabilia to celebrate the most important memories and places.

It began with our grandparents capturing portraits as professional photographers. Our father took control of the studio's photo quality, bringing film processing and print production in-house. That quickly morphed into Rhode Island's premier professional film and digital imaging center. Since the early 2000s, our generation has brought our digital imaging capabilities to more than just paper and into the custom gifts company we are today.

We design our gifts with the recipient in mind. Just like a photo from the past, personalizations, name drops, maps, and landmarks can be so powerful as to evoke a memory and transport a person to an exact place and moment in time - making our custom gifts the perfect keepsakes!
